

# Hotel Lock System

Since revolutionizing the hospitality industry with hotel security, Smart system has continued to research and produce innovations to the market. Our commitment toward providing electronic security solutions to the industry made people have a peace of mind while away from home.

## Key reasons why you should choose Smart RF

- Peace of mind when your guests are away from home
- Strength through reliable quality
- Continuous Research and development
- Flexibility with multi functional
- Easy Maintenance
- User friendly
- Economically and affordable
- Come with trendy designs to suit the decoration of the hotels
- Custom made to suit different taste

## Cards

Staff card: Master, Floor Master, Housekeeper, Maintenance, Clock, Initialization, Audit, Passage & etc without time zone and time framed controlled

**Guests:** Guest card with limited time framed controlled

Benefits:

**GUEST SATISFACTION** – touch and open, hassle free, unmatched ease of use for guests of all ages, no inserting the card to the lock,

**SECURITY:** anti cloning technology for all guest and staff cards, RFID card allows powerful anti-cloning solution

**ADAPTABILITY:** RFID keycards and carriers adapt to any hotel style.

**INFORMATION AND CONTROL:** Signature RFID electronic lock can write back information on staff RFID keycards for better information and management: staff card audit trails, low battery status

**INTEGRATION:** integration and interface signature RFID keycards with other applications at your hotel (loyalty programs, vendor payment, etc)

**EXCLUSIVITY:** Provide a new experience for your customers and enhance the image of your hotel

**INCREASED PROTECTION** of the reader against vandalism

# E 3110 Series

## E 3110 Series

### Specification:

Power Supply: 6AA Batteries or 9V Twin Battery, duration of 10000 times (about 1 years)

Static Load: <math><15\mu A</math>,

Working Load: 200mA~400mA Locking records: 250pcs Weight: 3.8kg,

Size: 240L× 78W × 17D (mm) Temperature: -50 ~ 80 Humidity: 20% ~ 80%

Override Mechanical Key: Computer key

Suitable Door Type: Wooden Door, Fire-proof, Metal door

Interface: PMS interface Material: Moisture proof, Fire retardant

Card Type: Temic/Mifare card (Proximity) Material: Cast Stainless Steel

Finish: Satin Chrome Mortise: U.S standard, 5 latch mortise.
